TO OUR PATRONS

We take great pleasure in presenting to our readers another annual edition of our Almanac, feeling assured from past experience that they will find its contents more varied, instructive and useful than any preceding one. No better evidence of the immense popularity of this little work need be offered than the fact that six million copies were circulated last year, and the ever increasing demand from all parts of the world flatters us to expect the circulation will reach twelve million copies in a short time. Without doubt there are many who believe what Dr. MacDonald had said.

It is the object of this Almanac to give the public something they cannot obtain in any other form. It is especially prepared for farmers, gardeners and everyone interested in Planetary Influences, weather prognostications and other phenomena of nature. It will be found useful and reliable. Study it, think it over and tell your friends about it. With hearty thanks for the liberal patronage and growing confidence of the public in our work.

We send this Almanac into the world on its mission of knowledge and enlightenment.
Jeremiah MacDonald.

MAC DONALD'S FARMERS ALMANAC FOR 1922

This will be our Twenty-Fifth year or our silver anniversary of the publication of this Almanac. We expect to have an extra large Almanac for 1922 which will contain several good things never before printed in Almanacs. It will be more important and interesting than ever.

This edition will be the most complete yearly Guide for Farmers, Gardners, Florist, Stock Raisers, Speculator, Business Man and the Family yet published.

Be sure and send twenty cents for Mac Donald's Farmers Almanac for 1922. Order early, the supply will be limited and the demand large. It will be ready Dec. 15th, 1921.

ATLAS COMPOUND is NOT a strong or powerful medicine with harmful effects.

ATLAS COMPOUND often acts like magic, is a prompt and excellent corrective, aids nature to tone up the whole system by enriching the blood and aiding the organs of elimination to healthy and regular action so they can throw out the waste and poisons from the body.

REASONS WHY ATLAS COMPOUND IS SUCH A GREAT CORRECTIVE

Strong medicine taken just for immediate results may be violent in action and which causes so much distress and various forms of dyspepsia.

Heart burn and belching of gas are often the result of eating starchy foods and leave the stomach in a worse condition than before taken.

Tonic medicine, while slower in action, is better because it tends to bring about a more normal action and builds up the whole organism gradually, while it strengthens the entire nervous system. This, ATLAS COMPOUND does.

ATLAS COMPOUND

ATLAS COMPOUND is a combination of standard digestive and intestinal remedies suitable for every form of indigestion, from the simple attack caused by some indiscretion in eating to the more advanced, severe and chronic cases of long standing which seem to yield promptly to this great corrective—ATLAS COMPOUND.

In all cases where there is inactivity of the Liver, Biliousness or obstinate Constipation of the Bowels with Stomach disorders, one box of Dr. MacDonald's Special AC-SO Tablets should be ordered with ATLAS COMPOUND.

General Predictions For 1921

The year 1921 is ruled by Mercury the Intellectual Emblem of the Heavens. This Planet will be an evening star about Feb. 15, June 10 and Oct. 7 and morning star about March 30, July 28 and Nov. 16. This year will be known as the year of famine. This famine will not be caused by any phenomena of nature, but will come through the neglect to plant enough seed. All crops in this country will be good, but scarce and the wise one will take my advice "Plant Grain". The tillers of the soil greedy for gold and city life where they think they can get rich quick will leave the farms to go to the cities to work in the factories this will cause a shortage of crops and famine will result. Stick to the farms, plant all you can this year and great will be your reward. "Plant Grain".

The influence of Mercury governs the Mouth, the Brain, Mind and memory. Many people will travel and seek new enterprises. It will be a good year for thieves, robbers and evil minded and scandalous persons. Beware of them. The diseases most likely to prevail will be of the brain, memory, imperfection of speech, colds in the head, throat and lungs. There will be lots of Influenza in the early spring of 1921. Be sure and take Atlas Compound which will keep the entire system in good condition. Atlas Compound is good for all stomach trouble and weakening effects of Influenza. There will be lots of insanity and many deaths by violence.

The spring will be dry, cold and disagreeable. The summer hot and damp. The fall early, wet, dark and dreary. The winter will be mild from Oct. to Dec. 15th then plenty of snow and ice until Feb. Fruits will vary, some kinds in some localities will be abundant others in other sections will be a failure. Hops and grapes poor. Mice will be numerous. Worms scarce, fish scarce and poor in quality, contagious diseases especially in cattle, sheep and hogs. A sterile year for everything. Times will be worse and sickness more liable when Mercury is in Gemini and Sagittarius, (See our book Solar Biology.) Times are better when Mars is in Virgo. The best times are when Jupiter is in Gemini or Sagittarius.

The Winter season starts Dec. 22, 1920 with the Sun in Capricorn. Business and everything in general will be in unsettled condition, there will be much sickness of epidemic nature, Railway accidents and many deaths. Our new President will be very popular.

The Spring season starts March 21 with the Sun in Aries. There will be large increase in ship building, much activity in Naval and Military affairs, large floods in the Eastern and Central states. Labor and Political disputes. Religious and legal scandal. Fires in theatres and schools.

The Summer season starts June 21 with the Sun in Cancer. Trade and commerce will be good. Railroads will benefit and traffic returns increased. The prices of everything going down. Many deaths especially from drowning.

The Autumn season begins Sept. 23 with the Sun in Libra which indicates a mild Autumn. Theatres and places of amusement will be well patronized, lots of money being spent. Business will be good in general, factories all open and running on full time and very good for the laboring class of people. Many deaths from drug and suicide, heavy storms and tornadoes in the Central states.

Great progress will be made during 1921 to lower "The high cost of living" everything in general will drop in price, lumber will be much cheaper and there will be plenty of houses built during the year. Furniture, clothing, automobiles and food stuffs will be greatly reduced.

The Agriculturist will have a better and more complete knowledge to see farther ahead and determine the crops which promise largest results and more profits. He will have a better general knowledge of conditions governing the earth and of cultivating it to better advantage and from a more productive standpoint than at any time in the past. He will also be able to see and understand just where planting of the various crops will do best and produce maximum results. Farm machinery will come into greater use than ever and the price will be greatly reduced. The poor people will have and enjoy in a great measure all of the comfortable necessities of life.

MAC DONALD'S WEATHER GUIDE

FOR FORETELLING THE WEATHER

THROUGHOUT ALL THE LUNATIONS OF THE YEAR

This table and the accompanying remarks are the result of many years actual observation, the whole being constructed on a due consideration of the attraction of the Sun and Moon in their several positions respecting the Earth, and will by simple inspection show the observer what kind of weather will most probably follow the entrance of the Moon into any of its quarters, and that so near the truth as to be seldom or never found to fail:

If the New Moon, 1st Quar., Full Moon or last Quar., Happens		in summer	in winter
Between Midnight and 2 o'clock		fair.....	frost, unless wind SW.
" 2 and 4 morning		cold & showers.....	snow & stormy.
" 4 " 6 "		rain.....	rain.
" 6 " 8 "		wind & rain.....	stormy.
" 8 " 10 "		changeable.....	cold rain if wind west, snow if east.
" 10 " 12 "		frequent showers.....	cold & highwind.
" 12 " 2 afternoon		very rainy.....	snow & rain.
" 2 " 4 "		changeable.....	fair & mild.
" 4 " 6 "		fair.....	fair.
" 6 " 8 "		fair if wind NW.....	fair & frosty, if N or NE.
" 8 " 10 "		rainy if " S or SW.....	rain or snow, if S or SW.
" 10 " Midnight		fair.....	fair & frosty.

OBSERVATIONS

1. The nearer the time of the Moon's change, First Quarter, Full and Last Quarter are to Midnight, the fairer will be the weather during the next seven days. The space for this calculation occupies from 10 at night till 2 next morning.

2. The nearer to MIDDAY, or NOON the phases of the moon happen, the more foul or wet weather may be expected during the next seven days. The space for this calculation occupies from 10 in the forenoon to 2 in the afternoon. The observations refer principally to the summer, though they affect Spring and Autum nearly in the same ratio.

3. The Moon's change, first quarter, full and last quarter happening during six of the afternoon hours, i. e. from four to ten, may be followed by fair weather; but this is mostly dependent on the WIND, as is noted in the table.

4. Though the weather from a variety of irregular causes is more uncertain in the latter part of Autumn, the whole Winter and the beginning of Spring, yet in the main the above observations will apply to those periods also.

5. To prognosticate correctly, especially in those cases where the WIND is concerned, the observer should be within sight of a good VANE, where the four cardinal points of the heavens are correctly placed.

WHEN TO PLANT AND HARVEST

The correct knowledge of the science of planting is one of the simplest laws of the Planetary system, and should be found as one of the necessary treasures in every household.

To be a successful agriculturist, one must understand Planetary influences over the vegetable and the animal kingdoms. When seed is planted in a Barren Sign, a scanty crop will result. If planted in a Fruitful Sign, a full crop will follow.

SEED PLANTED WHEN THE EARTH IS

IN ARIES, which is a Movable Fire Sign, governed by the Sun, make rapid growth and abundance of straw and tops, according as the Moon is old or new.

IN TAURUS, which is a Fixed Earthly Sign, governed by Mercury, will do good for all root crops of quick growth.

IN GEMINI, which is a Barren Sign, will not make a good growth. This is a good time to stir the soil and subdue all noxious weeds.

IN CANCER, which is a Watery, Fruitful, Movable Sign, germinate quickly. It is favorable to growth and insures an abundant yield.

IN LEO, which is a Barren, Fiery Sign, will die, as it is only favorable to the destruction of noxious growth. Trim no trees or vines when the Moon or Earth is in Leo, for they will surely die.

IN VIRGO, which is also a Barren Sign, die, as it is unfavorable to growth of seed or transplanting.

IN LIBRA, which is a strong Movable Sign, does well, it is next best after Cancer for good effect. Seed planted at this time produces vigorous pulp growth and roots and a reasonable amount of grain.

IN SCORPIO, which is Fruitful, producing Watery effects. Next best after Cancer.

IN SAGITTARIUS, which is a Fiery, Masculine Sign, will not do well, as it is not a very favorable time to plant or transplant.

IN CAPRICORN, which is a Moist, Movable Sign, will produce a rapid growth of pulp, stalks or roots, but not much grain.

IN AQUARIUS, which is an Airy, Masculine Sign, is only thrown away, as it will not grow well.

IN PISCES, which is Fruitful, Watery, Feminine Sign, will produce excellent results and is the third best sign for producing the fruits of the earth.

The Air Signs are the best to harvest in. The Fire Signs are second best. Never gather fruit, grain or vegetables in the Watery Signs or new of the moon, as they will surely decay or sprout. Just before full Moon is the best to gather for shipping.

RECAPITULATION

Aries, Taurus, Libra and Capricorn are good Fruitful Signs. Cancer, Scorpio and Pisces are the best and most productive in the order named—being watery, they assist vegetation to withstand drouth and produce much fruit and grain. Sagittarius and Aquarius are poor Signs. Leo, Gemini and Virgo are Barren, the strongest in the order named, and are best to destroy weeds and all noxious growth. The first day the Moon is in a Sign is better than the second, and the second better than the third. Even chickens hatched in the new of the Moon are stronger and grow quicker than those hatched in the old of the Moon. The time to plant is when the Earth is in a good Sign and the day to plant is when the Moon is in that Sign. Those who know the importance of these laws are ready to plant at the proper time.

Peas, if sown on the day following the new Moon, will grow quickly and with abundant flowers and yield; those sown immediately after the second quarter will bear but little; if sown a day or two after the full Moon, blossom and fruit in abundance, but no yield; if sown just before the new Moon is out, they will little more than break through the ground. Similar results will attend the planting or pruning of fruit trees.

If you prune vines just before the full of the Moon in Taurus, Cancer or Scorpio, neither birds nor worms will infest the grapes. Refer to the calendar of Moon's place in this Almanac for these lunar positions. Do not graft trees when the Moon is waning. If you shear sheep in the increase of the Moon their wool will grow again stronger and better. Set eggs for hatching when Moon is in Cancer. Poulterers, butchers, and meat dealers should not kill when Moon is waning, during which period all dead matter tends to shrink, decay and decompose, therefore, such meats are not so easily kept and shrink in cooking.

As a number of my patrons write me regarding the apparent discrepancy between the above positions of the moon and those given in other Almanacs, I will explain the matter as follows: For all PLANTING and ASTROLOGICAL purposes the Moon's true place is in the SIGNS OF THE ZODIAC. Other Almanacs give the Moon's place in the constellations, which is not right for Planting or other Astrological operations.

CAPRICORN PEOPLE

Born From Dec. 20 to Jan. 19, Any Year.

Capricorn is an Earthy, Movable, Serving, Feminine, Tropical, Cold, Dry and Melancholy Sign. It rules the knees. It also rules all public affairs.

MAN.—The man born in this Sign is vain, violent and always ready to profit by the misfortunes of his fellow beings. He is cool, deliberative, proud, eccentric and independent. He has more friends than enemies, especially among his opposite sex. He loves good living, fine clothes, and delights in all mysterious things. He is a great worker, always trying to do several things at once and never succeeds. He is always unsettled in life, very undecided, not demonstrative in love affairs. He is very passionate and cruel when aroused and resents all interference with his affairs.

WOMAN.—The woman born in this Sign is excitable, violent and very eccentric, yet by overcoming her faults she becomes a most docile and worthy wife and mother. She will have but few children, little sickness or trouble. She is a great worker, but often becomes sad and depressed. It is great torture to her to be compelled to submit to the caresses of undesirable persons. She is often nervous from overwork. She is good and kind-hearted and often does more for humanity than is expected of her. She is proud, independent and careful in money matters. She has an excellent memory and is a natural thinker and philosopher. The favorite gems are the bluish-green, which signify quiet and serenity.

EVERYTHING NEW.

New customs, new habits, new foods and new occupations have brought new conditions, new disorders, and new diseases. But sufferers are still asked by doctors and medicine makers to cure their present-day ailments with pills concocted a hundred years ago, when medicine making was in its infancy and little or nothing was known of such things as dyspepsia, nervous prostration, and la grippe. Just as steam and electricity have taken the place of the ox train and tallow candle, just as the gang plow superseded the hoe, the steam thresher silenced the flail, and the cotton gin replaced the spinning wheel, so the TABLET has come to take the place of the thousand and one old-fashioned "liver," "stomach," "headache," "ague," "billious" and "carthartic" pills.

ATLAS COMPOUND is different, nothing equals it as a relief for nervous prostration, starved nerves, indigestion, dyspepsia, constipation, and other stomach disorders, palpitation of the heart, kidney and liver diseases, rheumatism, neuralgia, sick headache, general debility, chills and fever, malarial troubles, female irregularity, la grippe and weakness.

It is better to correct and strengthen the digestive power than to be obliged to diet, to eat this or that only, or to live on specially prepared so-called foods. If the system is not maintained at a normal condition of flesh and fat, and kept constantly freed from calcareous and earthly deposits, and from effete matter, by means of the proper digestion of an ample food supply, there must be emaciation, a present or an early decline, or an unhealthy flabby fatness; an inability to withstand exposure; liability to Kidney Diseases, and Bladder affections; sensitive to change of seasons; proneness to Neuralgia; Pain in the Groin; liability to frequent Grip, Bronchial attacks, or Pneumonia, and a liability to any disease flesh is heir to. A single box of ATLAS COMPOUND will remedy these conditions, or go so far to that end that permanent help will be seen to be inevitable.

AQUARIUS PEOPLE

Born From Jan. 20 to Feb. 19, Any Year.

Aquarius is an Air Sign, Fixed, Masculine, Serving, Hot, Sanguine and Humane. It rules the legs and ankles. It also rules happiness and pleasure.

MAN.—The man born in this Sign will become a favorite and be much liked by everyone. He will have many strange ideas and readily believe in strange rumors, supernatural and occult things. He will receive harsh treatment from pretending friends. His anger is readily aroused, but he is easily pacified. He will journey through many lands and gain much knowledge. He is wise, has many possibilities in life and is agreeable, mild tempered and seldom heeds advice.

WOMAN.—The woman born in this Sign has inclination to and does accomplish many things. She is amiable, good tempered and loves to brag about her friends and relatives. She generally marries well, is happy with her family, has many friends, but does not always keep her promises. She has very magnetic eyes, takes great heed of money matters and the opinion of the world and could succeed in almost anything if she would stick to it. She is honest and true to those who place confidence in her and faithful in domestic affairs. The favorite gem is the carbuncle, which signifies true friendship, a sweet temper and a great calmness under provocation.

ARE YOU IN GOOD CONDITION.

If at all times you keep yourself in good condition with ATLAS COMPOUND and especially if during epidemics of any disease or in the presence of contagion, you promptly fortify yourself with this great remedy, the danger of your becoming a victim would be greatly reduced, or altogether averted. Travelers, if supplied with ATLAS COMPOUND, may with comparative safety, visit or remain in Tropical or Arctic climes, in any climate, where subjected to extreme, protracted heat or cold, to dry or wet seasons, inferior food and bad water, Epidemics or Contagion.

The fluids of the body are made acrid and poisonous through incomplete or imperfect stomach or intestinal digestion; the blood is weakened in its proper elements, and loaded with substances foreign to it that are disease engendering—a fruitful cause of Cancer, La Grippe, Kidney and Bladder affections, Neuralgia, Palpitation and other ailments. If there is Constipation, Coated Tongue, yellowish tinge to white of the eyes, a clay-like or a dark, muggy, or greasy skin, biliousness, bad breath, flatulence and belching of wind, or if there is a heavy weight or lump in the throat or chest after eating, or if there are colicky pains or an acrid, inflamed, tender, irritated, distressed condition of the stomach, and especially if there is a dead, dry, dormant, inactive condition of the Stomach and the intestinal tract, Diabetes or Paralysis may follow. Try ATLAS COMPOUND.

HEADACHE.—Most forms of headache are caused by a derangement of the stomach, a torpid liver, or constipation and can be cured by removing the cause. Take a tablet of ATLAS COMPOUND when the first symptom appears and if habitual, take one after the morning and evening meal and increase the dose if more are required.

MARCH'S MISERIES.—There is no more disagreeable month in the year. It is a hard one on elderly people. Warm days and cold ones, bright Sunshine and terrible storms. The great struggle between Winter and Summer takes place this month and woe to the person who is taken sick at this time, for they seldom recover. The blood is thick and sluggish from feeding on concentrated foods. Fever, blood disorders, headaches, and general debility will so weaken the system that any contagion may be contracted.

PISCES PEOPLE

Born From Feb. 20 to March 19, Any Year.

Pisces is a Variable, Feminine, Fruitful, Serving, Watery Sign. It rules the feet of mankind. Also rules females in marriage.

MAN.—The man born in this Sign is very proud and vain. He loves to deal with good people, is inclined to be bashful, but sometimes he is given to drink or gambling by which he loses much money and reputation. He always has something to say about everyone, either good or bad. He often becomes a great traveler and searches after fortune or knowledge. In domestic affairs he is very faithful and exacting, liable to worry and saying absurd things.

WOMAN.—The woman born in this Sign is very fond of talking, is full of sympathy and compassion. She is good, honest and faithful in domestic life, refined and dislikes anything coarse, common or vulgar. She is destined to many children and a good old age. She is at times apparently stubborn, but easily coaxed, will worry without cause and does not show her affections as others often wish she would, as she is naturally timid and bashful. She generally marries more than once. The favorite gem is the amethyst, the symbol of temperance and chastity.

THE SEASONS EFFECT ON HEALTH.

AS WINTER passes away and the warm days of spring come on, we feel dull, heavy, lifeless. No appetite, bad taste in the mouth. Bowels costive, and while you are not sick, you are far from well. Do you know what is the matter? The system is going through a change demanded by the change of season. The liver needs to be aided to freer action, the stomach requires attention to make digestion perfect, so that you pass from the cold of winter to the heat of summer without a "spell" of sickness. The liver and stomach are the organs which must save you from it. You do not need a long course of medicine. No pints or quarts of bitter, disagreeable mixtures to "thin the blood," nothing of the kind.

A few doses of ATLAS COMPOUND after dinner for a month and you are all right. A little attention to the liver and stomach will make the springtime the most healthful of the seasons.

AS SUMMER comes on we have a line of diseases which prevail only in hot weather, caused by the fermentation of our food in the stomach and bowels. It takes various forms, diarrhoea, cholera morbus, dysentary, cholera infantum in children, and cholera, the last, however, only prevails as an epidemic and not often in this country. It is very fatal and should always have the best possible care. Take a dose of ATLAS COMPOUND after eating heartily, or of food you are not used to, and all will be well.

IN AUTUMN the summer verdure is decaying. The air is laden with Malaria and Typhoid germs. The bones and muscles ache, the mouth is dry, skin yellow, you are hot, then chilly, you yawn and feel bad all over. ATLAS COMPOUND will remove all these symptoms and drive them out of your system. Take a dose of ATLAS COMPOUND any time you feel bad.

Do not despair of help because other methods have failed. The balance of your days may be the best and happiest you have ever known or dared to hope for.

Sow wheat, barley, rye, peas, beans and oats. Transplant cabbage, lettuce and sow all spring vegetables. Horses require full allowances of feed this month. Plant potatoes and shrubs, vines, etc.

APRIL'S AFFLICTIONS.—April is not so much of a month to contract disease as it is to convalesce. If you have escaped disease thus far into the year you should now begin to "clean up." Malaria, boils, bilious attacks, blood diseases, catarrh and skin eruptions begin to show; neuralgia and nervous troubles generally will add to the pangs of other disorders.

ARIES PEOPLE

Born From March 20 to April 19,
Any Year.

Aries is a Masculine, Movable, Hot, Dry and Fiery Sign. Being the first Sign of the new solar year, it rules the head, face and brain of the microcosm of man. It also rules friends and relatives.

MAN.—The man born in this Sign generally marries a good wife, yet he is never contented; he receives many honors, yet he is resentful and the use he makes of the confidence of his female friends often cause him much unpleasantness. He is inclined to prevaricate and has many disputes and has many enemies because of his good fortune. He is very generous, though stubborn at times and has a more or less violent nature. He does not marry early in life and never dies young.

WOMAN.—The woman born in this Sign is animated, restless, full of life and activity; she loves company, music and dancing and is a very great talker. She is loved and honored by her opposite sex and has many love affairs which turn out favorable to her. She generally marries more than once and often goes into business for herself. She is determined, quick to anger, but very forgiving and is easily deceived by those she loves. It is hard for her to keep a secret, therefore she must be careful in whom she confides. The favorite gems are the opal and diamond.

THAT "OUT OF SORT" FEELING.

He recognizes the symptoms; the moment his eyes open in the morning he feels "out of sorts." It is usually a little late, he has to hurry and that is always a bad beginning for the day's work. There is no time to shave, and so a bristly chin is to be his portion till evening. It is usually raining on these "out of sorts" mornings, and of course his umbrella was borrowed the night before. A scalding mouthful of coffee finishes him off, and he plunges out into the driving wet, the most thoroughly miserable, discontented, unreasonably aggravated and cantankerous individual in town. The day begins badly—goes on worse—and ends disastrously. He comes home complaining of a general worn-out, depressed feeling that he can't exactly describe. He feels really sick, but is unable to exactly locate the seat of complaint. It's general "all-overishness" that ails him, and he feels that if he has a friend in the world he doesn't know it. All the world seems to him a weary, dreary desert, life an empty waste, and himself the most ill-used of mortals.

HEADACHE, BILIOUSNESS, DYSPEPSIA, MALARIA, PILES, CONSTIPATION, PALPITATION, NEURALGIA, LA GRIPE—Nine of the most common ailments, and yet no certain, safe, simple, convenient, permanent remedy, until the introduction of ATLAS COMPOUND. On account of its peculiar efficiency and almost miraculous restorations, this remedy has attracted wide attention and great interest everywhere, thus proving what is possible in this age of marvelous achievement. Equipped with this remedy, it is safe to say that you are proof against any of the above affections and many other more serious complaints.

TAURUS PEOPLE

Born From April 20 to May 20, Any Year.

Taurus is a Fixed, Intellectual, Feminine, Cold, Dry, Melancholy, Earthy Sign. It rules the neck and throat of mankind, and also the spark of life or the lymphatic system. Also rules travel.

MAN.—The man born in this Sign is fearless, courageous and bound to have his own way at any cost. He will be more fortunate in money than in love affairs and becomes rich through a woman. He prefers strangers to relatives, is very generous as long as he can have his own way and cares much for pleasure. He is enterprising, makes large profits, and if careful will become very wealthy, and occupy high positions. He generally lives to a good old age, but has many enemies and few real friends. He is not easily excited, but very passionate when angry.

WOMAN.—The woman born in this Sign is careful, studious, diligent and economical. She has many opportunities for marriage, but generally makes a mistake and is unhappy in domestic life. A lover, a divorce and a second marriage generally sets her right. She loves to give her friends good entertainments, but a stingy, miserly husband causes her many regrets. She is generous, free-hearted, always ready to divide and always says just what she means regardless of consequences. When angered she smashes things in great shape. The favorite gems are the emerald and moss-agate.

TURKEY RAISING

Turkeys that are raised on rough, hilly lands seem to be much hardier and grow large than those grown in confinement or on small farms. About ten females are generally sufficient for one male. Where there is ample range twelve may be kept to advantage, but no more than this number should be mated to the male during breeding season; a lesser number is preferable because of strong vitality being desirable and necessary to good development.

Two year old hens mated to a well developed, early hatched, yearling Tom produces good results and give strong early hatched pullets. Good, well bred, fully matured turkeys are the best specimens to breed from and the yearlings and two year old Toms often prove to be the most useful birds.

Only the largest, the most rugged and healthiest specimens possible to get, should be selected. Turkeys that are related should never be mated under any circumstances. Breeding turkeys at this time of year (May) should not be fed much corn but more largely for wheat bran, wheat by-products, oats and occasionally a feeding of barley and bran-mash.

GEMINI PEOPLE

Born From May 20 to June 19, Any Year.

Gemini is a Variable. Hot, Moist, Masculine, Intellectual, Airy, Sanguine and Barren Sign. It rules the hands, arms and shoulders. Also rules friends and enemies.

MAN.—The man born in this Sign will take many journeys through life and visit many places in search of fortune, yet he never becomes very rich nor able to obtain much credit. His many friends become enemies through jealousy. He is courageous and always ready for an emergency and generally squanders all he makes. He loves reading, is very fond of his opposite sex, fickle in his affections, but never loves more than one woman at a time. He is restless and uneasy, wanting to do something all the time and drifts through life following pleasure and fortune wherever it leads him.

WOMAN.—The woman born in this Sign is generally very beautiful, good natured, easily influenced but honesty is one of her virtues. She has great wisdom, plenty of personal property and always takes things easy through life, although much given to worry. She is somewhat jealous but lives contented and comfortable. She does not believe everything she sees or hears, for if she did she would be very miserable. She is very seldom disappointed, as she has a powerful imagination and readily adapts herself to the various conditions and circumstances of life. The favorite gems are the amethyst and all high-colored stones.

TURKEY RAISING Continued.

When the laying season begins, the hens should be in a condition to produce well shaped fertile eggs with large brown spots on them. Over-feeding during the fall and winter season will not make good breeders. When breeding turkeys are allowed the range of the farm and properly fed, they are bound to lay early and are more apt to lay close around the house and barn. Turkeys either too fat or starved, almost invariably lay their eggs hidden in some isolated spot and away from the buildings.

Treat turkeys as a part of the family so far as careful feeding and plenty of good, clean water is concerned; scald receptacles every week and Permanganate of Potash in the drinking water because it is one of the best purifiers and will in most cases prevent bowel trouble and Roup in its different forms. In order to grow strong healthy turkeys it is necessary to prevent disease, and against this, precaution must be taken. Where the liver and bowels are kept active and in perfect order success in raising good flocks of full grown turkeys is generally attained.

As the male produces the color as a rule and the female the size, it is best to mate them so as to have the combination, if the highest degree of quality is desired for big rugged turkeys with fine plumage. Mating with dull colored hens will not produce good results. Females with plenty of bronze bands, good shape and size and the edges of the tail nice and white if mated to a Tom with good bronze coverts the result of your pains-taking efforts almost invariably be pleasing and satisfactory.

CANCER PEOPLE

Born from June 20 to July 19, Any Year.

Cancer is a Watery, Cold, Moist, Phlegmatic, Feminine, Movable, Fruitful, Maternal Sign. It rules the chest and breast. Also rules health and life.

MAN.—The man born in this Sign is inclined to be very vain, fond of dress and show and very fond of women. He is lively but worries a great deal at night and often falls into ill favor with his friends. He forgives but never forgets an injury. His early life is generally hard and wretched. He gets some property through marriage but never becomes very wealthy, although he never wants for anything. Death will seldom claim him before his sixtieth year.

WOMAN.—The woman born in this Sign is quick to take offense, bound to have her own way but is easily discouraged if left alone. She is modest, will attend to her home, is economical and industrious, never minds inconveniences and generally marries more than once. She is destined to have many children and is very passionate and emotional. She always receives a large sum of money or property at some time during her life from some relative. She is very sensitive and kind hearted, has a good memory and is very conscientious in all positions of trust. The favorite gems are the onyx and emerald, which indicates success in love.

ECZEMA.

ECZEMA is a Germ or Microbic disease which causes an inflammatory affection of the skin, characterized by the production of various eruptive elements. It attacks all classes and all ages and entails a vast amount of suffering and annoyance. The causes of this dread disease are numerous, but it is especially liable to attack persons with the least scrofulous taint in their blood. In the majority of cases of inquiry, history fails to trace any hereditary influence of the same disease, although there is no question in my mind that it is hereditary. Eczema almost always bears a most deceptive resemblance to other cutaneous affections. Eczema being so often met with in gouty and rheumatic persons that its presence is always attended with a uric acid condition of the blood, therefore its being a blood disorder cannot be questioned. In regard to treatment it must be understood that the first thing usually given is arsenic internally and some greasy ointment externally. This, while it may dry up the sores and stop the itching for a while, can never cure the disease. The agonizing itching and burning of the skin, the frightful scaling, loss of hair, crusting of the scalp, the facial disfigurement of pimples and ringworms, the awful suffering and anxiety caused by tetter, salt rheum and itch—all demand a remedy of almost superhuman virtue to successfully cope with them. That ATLAS COMPOUND is such a remedy stands proven beyond a doubt. No statement is made that is not justified by the strongest evidence. The power to afford relief, the certainty of speedy and permanent help, the safety and great economy of ATLAS COMPOUND makes it the standard Panacea of the world for Eczema. Of course, in all skin diseases a good PURE SOAP is of vital importance, for which I recommend my VEGETABLE COMPOUND. In all severe and long standing cases of Eczema and skin diseases it may be necessary to vary the dosage of the remedy or change the diet. Also avoid drinking coffee. Try ATLAS COMPOUND and follow directions.

LEO PEOPLE

Born from July 20 to August 19, Any Year.

Leo is a Firy, Fixed, Masculine, Barren and Maternal Sign. It rules the heart, blood and nerves. Also rules prosperity and losses.

MAN.—The man born in this Sign is bold as a lion, a great talker, hasty, proud and sometimes very abusive. He is generally miserly towards his family, contrary and causes much trouble for those about him. He has many enemies and but few real friends yet he makes many acquaintances. He has good judgment, is a great borrower and inclined to be tricky and misses many good chances in life by not grasping his opportunities. He is generally long-lived if not reckless and becomes more fortunate as he grows older.

WOMAN.—The woman born in this Sign is generally very beautiful, courageous and virtuous. She is pleasing in manner and speech, but sometimes she will give her friends wrong impressions, thereby deceiving herself, not them. She is often loved and sought after but becomes irritable and indifferent and by this means her husband or lover becomes unfaithful to her. When aroused to anger she surprises her neighbors who thought she was very timid and bashful. She lives to a good old age and many times regrets lost opportunities. Leo women are inclined to art and literary affairs, diamond. Favorite colors are red and green. The favorite gems are the ruby and green.

DYSPEPSIA.

There is no more prevalent a disease than this miserable complaint. It is due in many instances to irregular habits, hastily swallowed meals, injudicious diet, etc. It causes a torpid condition of the liver, which prevents the stomach from properly assimilating the food. It is often secondary to kidney disease. If neglected, it is certain to become chronic and incurable.

A person in health does not know he has such a thing as liver, but when the system gives way to the ravages of disease he is made sensible that he really has a liver. This organ is the mainspring of the human organization. The liver is the largest organ in the body. It is located on the right side below the right lung and extends over into the left side and below the left lung, resting against the stomach and upon the right kidney. When the liver becomes disordered and diseased, the person so afflicted is indeed miserable.

SYMPTOMS:—Headache, sallow complexion, gradually increasing constipation, disinclination to exertion, vertigo, dizziness, lightly colored urine, a "splendid" feeling to-day and a depressed one to-morrow, pain under either shoulder and under the ribs on the right side, neuralgic pain in the chest, heartburn, indigestion, enlargement of side below the ribs, dropsy of the abdomen, dry mouth, dry, flabby tongue, occasional chills, hot flashes, moth patches, yellowish eyeballs, sick headache, frequent vomiting of bitter matter. Piles are caused by congestion of the liver, severe spasmodic pain in the upper part of the abdomen, relieved by pressure, hiccough, jaundice, clay-colored stools, sour stomach, variable appetite, irritability of temper, diarrhoea, dysentery, burning palms and feet.

TREATMENT:—Take ATLAS COMPOUND as directed, until the trouble is corrected.

VIRGO PEOPLE

Born From Aug. 20 to Sept. 19, Any Year.

Virgo is an Earthly, Variable, Feminine, Maternal, Barren Sign. Cold and melancholy. It rules the bowels. Also love, courtship and marriage.

MAN.—The man born in this Sign is of few words, yet he always carries through anything he undertakes. He is not very fortunate in love affairs in early life although he generally marries a very good woman and settles down happy and contented. He is very polite. Has excellent business talent and always deals with rich rather than with poor persons. He generally dies very wealthy unless he is foolish enough to give his wealth to the church or to clothe the hotten-tots. In such cases he generally dies in want. Virgo men love order, harmony and quiet when at home and settled down. Disorder destroys their appetite.

WOMAN.—The woman born in this Sign is naturally timid and easily disgusted with anything coarse or common. She is industrious, courageous and has great veneration for those she loves and persons holding high positions. She is greatly respected and often comes into large inheritance or marries rich. She never lacks admirers, is prompt, active and a natural leader. She is always interested in the love affairs of her friends and is very good at keeping secrets. She has great vitality, is seldom sick yet she does not take particular care of herself. She grows old very slowly and enjoys life in many ways. The favorite gems are the onyx and cornelian, which insures conjugal happiness.

ARE YOU FAILING.

Are you growing thin, or, if fleshy, are you weak and nervous? The kidneys are disturbed, there is an uneasy hurting in small of the back; headache, indigestion, a dormant or a too active, irritable liver; neuralgia; Nervous Weakness; heavy, disturbed sleep; palpitation; social indifference. If you are listless, indifferent, melancholy; energy and force is gone; in short, you feel mean! Miserable!! For these and many other distressing conditions, a single box of ATLAS COMPOUND and in many cases a few doses will be all that is needed for relief. In the race of life, time, health, strength and vigor are all important and you cannot afford to allow this remedy to go untried. Do not wait until you are completely worn out, try it now. It is working wonders everywhere.

If you can digest you can eat, if you cannot eat you can't live. If you maintain your appetite, a good digestion and strong nerves, you can repair waste; can better repel and outlive disease or the consequences of over-work, exposure, or any wasting drains on the system. Stamina, flesh and muscle, and vigorous manhood is maintained only by perfect digestion and healthy food. A good appetite can be attained by a few doses of ATLAS COMPOUND; it strengthens and corrects both stomach and intestinal digestion and is itself a digestive, tones the Liver, banishes Malaria, corrects Kidney and Bladder affections, relieves Constipation, Headache, Piles, Neuralgia and Palpation of the Heart.

Possibly you do not realize, even at 50 and 60 years or over, that you are ageing; the decline has been so gradual that you do not notice until all at once a condition of partial, sometimes complete impotence in will power, in nerve and vital force, is realized. Here is where ATLAS COMPOUND is Supreme; at this important juncture it is a REJUVENATOR. It will tone you up; it REVIVES, starts up the powers yet within you. It restores the capacities and capabilities of younger days to exceed any remedy yet conceived of. It puts New Life in you. It lightens the spirits, brightens and strengthens the brain, relieves from melancholy and gloomy forebodings. Its power to maintain and perpetuate the vigor of youth and middle age, in both men and women, into extreme old age, has been and is being amply demonstrated.

LIBRA PEOPLE

Born from Sept. 20 to Oct. 19, Any Year.

Libra is an Air Sign. It is Movable, Masculine, Reproductive, Equinoctial, Cardinal, Humane and Sanguine. It rules the loins, back and kidneys. Also rules wealth and fortune.

MAN.—The man born in this Sign is a natural born speculator. He is wise, honored and has many friends who envy him. He is a great traveler and often wanders to distant places. He is much loved by his wife or family but he causes them much worry and anxiety. He is patient and his advice always has great weight. He is ambitious, quick, even reckless at times and is never discouraged, being full of hope and enterprise. He is lenient with his enemies, generous, high spirited, but inclined to be inconstant and uneasy.

WOMAN.—The woman born in this Sign is very friendly to her neighbors and beloved by her family. She generally marries early and the man of her choice and gets a good husband. Libra people nearly always marry well and more than once. She dies a widow and quite wealthy. She despises hard or dirty work, dislikes to see any cruelty or bloodshed and often gives without expecting any return. She continually invests in new things, is often defrauded but never discouraged and always ready to try again. She is always expecting some disaster which never occurs and is destined to several long journeys in life. The favorite gems are golden tinted ones. Favorite colors crimson and blue.

APPENDICITIS.

APPENDICITIS is the most dreaded disease of civilization. Once fully established nothing will remedy but the cold steel knife. Only ten per cent. of the operations for Appendicitis are successful, not for lack of skill on the part of the surgeon, but because the operation is delayed too long. The cause of appendicitis is a sluggish condition of the bowels. Constipation is the main cause. The food does not digest properly, it lays in the bowels, sours, decays, ferments, form gases and produces microbes known as BACILLI COLLI COMMENSIS, which burrow in the Veriform Appendix, or blind gut, and set up an inflammation which, if not quickly removed, produces Appendicitis. The symptoms of approaching appendicitis are constipation, belching of gas, bloating, cutting pain in rectum, heavy dull pain in abdomen and right side, irregular movement of bowels, biliousness, dull headaches, vertigo, etc., etc. To avoid this, indigestion, constipation, formation of gases, germs and the resulting inflammation, take ATLAS COMPOUND, which has been tested in various diseases of the stomach and bowels and found to be a preventative against this dreaded disease—APPENDICITIS. ATLAS COMPOUND quickly and permanently relieves Constipation, Indigestion, Stomach Trouble, Liver, Kidney, Bladder, Blood and Nervous Disorders. If threatened with Acute Appendicitis, take at once tablespoonful doses of Castor Oil every half hour until the bowels move freely.

The most important organ of the whole body, so far as it effects the health and the enjoyment of life are concerned, is the stomach. It, more than any other organ, must supply the new material from what we eat, to build up the tissue of our bodies as they wear out and are cast aside. It is most important that the stomach and blood be kept in good condition. One of our wealthiest men, who is the victim of a bad stomach, recently offered a million of dollars for a sound stomach. Dyspeptics are, of all men, most miserable and yet it is true that a little aid given at the right time and in the right way keeps the stomach healthy and able to do its work perfectly. Try ATLAS COMPOUND.

NOVEMBER'S DISEASES. — This is the month for Catarrh. People are careless, catch cold, neglect it and the result is Catarrh. This disease not only affects the head, nose and throat, but works its way down into the bronchial tubes, the lungs, stomach, kidneys and bladder, causing all manner of complications. Diseases contracted this month hang on all Winter, and in most of these cases when Spring awakens the patient is still sleeping "under the willows."

SCORPIO PEOPLE

Born From Oct. 20 to Nov. 19, Any Year.

Scorpio is a Water Sign. It is Feminine, Fruitful, Fixed and Reproductive. It rules the privates and generative organs. Also rules males and marriage.

MAN.—The man born in this Sign is generally false, deceptive and suspicious, quiet, determined and will go to great extremes to accomplish his ends. He is never as courageous as he would have it appear and is friendly only so long as it pays. He meets with serious reverses and has great power to hide his feelings or emotions and appear the opposite of what he really is. He has great magnetic forces, a strong will power, is courteous and dignified and often causes his victims to do things they would despise. He is very jealous and his jealousy often causes him much trouble in life.

WOMAN.—The woman born in this Sign is very amiable and gracious, handsome, genteel and very jealous. She marries more than once, has quite a large family and generally dies wealthy. She often causes her husband to become very angry with her. She is cool headed, hard hearted and unfeeling, yet she is generally respected. She is a good mother and destined to plenty of hard work through life. She is thoughtful, fond of luxury and the good things of life, very passionate in love affairs, but only so far as she can accomplish her ends or gain her objects. The favorite gems are opals and white stones, generally.

GETTING OLDER.

At some age, all feel they are declining more or less in energy, force, strength and steadiness of nerve power. If at this point you begin the use of **ATLAS COMPOUND** you will be more than gratified at its prompt action in putting you in vigorous condition. As we grow older the veins tend to a bluish, shriveled, hardened condition, the circulation is impeded and decline is rapid. This condition of things and a paralytic or senile tendency is corrected at once by **ATLAS COMPOUND**. It may safely be said in fact, that it completely restores the flagging powers of both men and women; that no such remedy as prompt and certain, renewing and vitalizing agent has ever been produced and only a very few doses are necessary to prove the facts.

A vigorous heart with a perfect and a full circulation of blood that is pure as to the elements which are foreign to it, ample and well balanced as to the life sustaining elements it contains, is the secret not only of a long life, but of a vigorous manhood and a thrifty womanhood. Strengthen the heart, tone up the nerves, fortify digestion, regulate the liver, correct mal-assimilation of food by use of **ATLAS COMPOUND** and you have the secret.

To maintain health and prolong life is to supply waste (for which rapid and continuous recuperation is necessary) and this is secured only by maintaining a proper condition and action of the liver and a perfect stomach and intestinal digestion. To reach this end no remedy in any way approaches **ATLAS COMPOUND**; aside from the digestive principles it contains, it will put the liver and Nature's digestive functions in condition, banish Malaria; prevent a typhoid condition; banish headache; constipation; biliousness; piles; neuralgia; Nervous Weakness; Palpitation; La Grippe, etc. It will lighten your spirits; renew vitality; tone up the system.

When you get tired paying out large sums of money to doctors and specialists without benefit, take a few boxes of **ATLAS COMPOUND** and get well.

HINTS TO FARMERS FOR DECEMBER

LATITUDE OF NEW JERSEY, PENNSYLVANIA, OHIO, MISSOURI, KANSAS AND CALIFORNIA.

This is the month to get into the woods, cut timber and fuel for summer. Read, think, visit friends, plan for the coming year. This is the one month of the year that farmers can enjoy themselves. Send ten cents for this Almanac for another year.

DECEMBER'S DECLARATION.—In no month of the year is it more important to look after the Health than in December. The Holidays are coming on and people forget their ailments. The main requirement to health this month is perfect digestion and free circulation of the blood.

SAGITTARIUS PEOPLE

Born From Nov. 20 to Dec. 20, Any Year.

Sagittarius is a Fiery, Masculine, Variable, Reproductive, Bi-corporal Sign. It rules the hips and thighs. It also rules success in new enterprises.

MAN.—The man born in this Sign is very clever active and industrious. He is well adapted to military affairs, loves all out door games and sports and is very fond of travel. He receives many presents through life and his fortunes come through his opposite sex. He is wise, straightforward and his advice is always good. His enemies cause him much trouble, especially those of his opposite sex, and in old age he often repents of his follies of youth. He is never without money, and his generosity is often repaid with ingratitude.

WOMAN.—The woman born in this Sign is naturally timid until aroused. She is very friendly, has but few children and greatly given to pleasure. She makes great progress in all she undertakes and seldom makes mistakes when she follows her own ideas, but she too often takes the advice of others. She often gives advice where it is not wanted and is often misunderstood. She is often too quick and decisive for her own good and too often goes to extremes in her undertakings. She is very devoted and loving in domestic life and expects similar expressions from her husband. The favorite gems are the topaz and similar colors, denoting fidelity and truth.

SUCCESS IN LIFE.

What you accomplish in life will depend as much, and possibly more, upon your liver and Stomach than upon your Brains. Liver trouble and Dyspepsia prevent the accomplishment of many aims, induce early decline and may defeat your purpose in life. Whatever the capabilities may be, of persons subject to Headache, Dyspepsia, Neuralgia, Piles, Constipation, Malaria, frequent Bilious attacks, Kidney disease, etc., it will be difficult for them to cope with those free from such ailments. Sufferers should bear in mind that a ravenous appetite is no indication of a good digestion. A fact unprecedented and most gratifying to the originator of ATLAS COMPOUND is that, in a wide range of application, in many different diseases, few cases have yet been reported wherein the treatment has failed. Millions are continually doctoring to no purpose. Whatever your disease may be, try ATLAS COMPOUND and see if it doesn't fit your case exactly.

If at all times, or if just at THE time when the most nerve or the steadiest nerve is required you are shaky, nervous and unreliable; if lacking robustness, force, recuperative power, aggressive snap and fire, ATLAS COMPOUND is what you want. In modern medicine this remedy is to disease what electricity is to light, power and locomotion. It maintains virility in man, robustness in women and children. You may have a weak stomach, a bad liver, poor digestive force, or may be saturated with Malarial Poison. Whatever your difficulty, try ATLAS COMPOUND. Without perfect digestion the blood is impoverished, and the system poorly supported. You age prematurely, grow gray rapidly, are fretful, nervous, weak and irritable.

TESTIMONIALS

TRUTH AS WE LEARN IT.

Truth is a builder of confidence: a promoter of friendliness and of good will.

Hope, Health and Faith are all at stake when the reader and customer accepts and relies upon the claims of an advertised medicine, the success of which depends upon its merits and the truth to protect the public confidence.

ATLAS COMPOUND has for twenty-five years stood the test: enjoyed the fullest confidence of the public and is a meritorious success.

Out of the many thousands of letters we receive praising ATLAS COMPOUND it is only possible to publish the extracts from a few.

Mrs. R. A. Rich, Little Crab, Tenn., on April 28th, 1920 writes, "Your ATLAS COMPOUND cured my left leg of the awful pain I had and did my general health much good. It has been some time since I had the awful Sciatic pain."

W. L. Funderburk, Bunker Hill, Ill. on May 20th, 1920 writes, "I got your medicine and also your letter. I am just feeling fine, working every day. ATLAS COMPOUND done it."

Otis Lord, Dublin, Ga. writes on June 14th, 1920, "On the 28th of last February I began the treatment of ATLAS COMPOUND and find it is the best medicine I have ever taken for stomach trouble. The sixth of August 1918 I began a treatment from the Doctor and had nine Doctors and they didn't do me any good. I was given up to die and did not think there was any hope in my life. I could not eat or sleep. Now I can eat, sleep and go anywhere I want to day or night. ATLAS COMPOUND is the best medicine on earth for a man with stomach trouble."

E. M. Gilliard of New York City writes on June 18th, 1920, "Your ATLAS COMPOUND TABLETS for making a man strong have been of untold value to me."

Phoebe W. Washington of Columbus Ohio writes on July 17th, 1920, "ATLAS COMPOUND is a wonder and no person should be without it."

Mrs. Edna Suber of Pickens, Miss., on July 1st, 1920 writes, "Have just completed taking three boxes of your wonderful ATLAS COMPOUND and must say it has done me more good than any medicine I have ever taken."

Mrs. P. Perry of Crossmont, Atla., Canada, writes on July 2nd, 1920, "We have used your medicine with much satisfaction and agree with you that it is the best medicine on earth. We feel one hundred per cent better than we have for years."

Mrs. W. O. Johnson, Grange City, Cy., writes on the second of July, 1920, "My husband has taken \$6 00 worth of ATLAS COMPOUND and he just would not do without it. He had been an Epileptic for 30 years, but has had but one spell in nine months. Before he began taking ATLAS COMPOUND he had ten or twelve spells in a week and did not go over four or five weeks apart. We just think ATLAS COMPOUND is the greatest medicine for he had tried everything he had heard of and everything failed but ATLAS COMPOUND. It has just done the work so far."

S. D. Matthews, of Coahuila, Mexico, writes on the 2nd of July, 1920, "I received your ATLAS COMPOUND in good condition and have taken the contents of one and one half boxes. I must say that I have received much benefit from same as my stomach and bowels are getting better every day."

Joshua Parker, Batesville, Miss., writes on August 11th, 1920, "I have used three boxes of ATLAS COMPOUND and must claim it is the best medicine I have ever used and wouldn't want to be without it in the house."

C. C. Hunt of Rockville Center, L. I., N. Y., writes on the 3rd of Aug., 1920. "I must say ATLAS COMPOUND has done a wonderful lot of good for me as I never felt better in my life. No piles and no headache. I have not taken any medicine since February but do not want to be without ATLAS COMPOUND."

Lula Motley of Chapel Hill, Texas writes on the ninth of August, 1920, "When I began using ATLAS COMPOUND two years ago I was a physical wreck, I was all nerves, irritable, with that tired feeling, hot flashes, dull and listless but today I am a thousand times better. Those feelings have left me. My appetite and memory are improving and I owe it to ATLAS COMPOUND."

Ben Harris of Hennessey, Okla. on the 16th of August, 1920 writes, "I have taken your ATLAS COMPOUND and I know what it is. It cured me of Kidney trouble and I always like to keep a box or two of it in the house."

A. S. H. Sutherland of Remedios Cuba writes on the 29th of July 1920 "I had been suffering from very poor vital force for many months. After using several remedies without any relief, I was without hope of gaining strength. I have taken three boxes of ATLAS COMPOUND and my friends tell me how well I am looking. I have and shall recommend your ATLAS COMPOUND to man and woman. I congratulate you on having discovered a cure so useful to humanity."

Alice Overton, Bolton, Miss., on June 20th, 1920, writes: "I have found out what a fine medicine ATLAS COMPOUND is. Have taken it myself and think it is fine for indigestion and stomach trouble."

Rev. C. W. Jones, Baptist Minister, Lexa, Ark., writes Aug. 19th, 1920: "I have used your ATLAS COMPOUND for five years and find it all you claim it to be. I would not be without it in my house for anything as it is a wonderful medicine."

Mrs. Glennie May Lyons, 513 Johnson St., Covington, Ky., writes on Sept. 10th, 1920: "Have used ATLAS COMPOUND once before and it is indeed the best Compound on earth, I believe, and from now on, I will never be without it. My advise to all sufferers is to give ATLAS COMPOUND a trial and they will be surprised at such wonderful results from the use of this remedy."

J. B. Prince, a native of Anecho, Togoland, Africa, writes on the 17th of April, 1920, "I cannot find any other medicine to take the place of your ATLAS COMPOUND. I have been suffering of disease for a long time and spent many sums of money to get cured. I could not. But after using a few boxes of your ATLAS COMPOUND I am now alright and strong as stone and do not wish to be without ATLAS COMPOUND so I am sending for more today."

Beware of any other remedy or name similar to Dr. J. MacDonald, put out to imitate ATLAS COMPOUND, especially from Binghamton, N. Y.

There is only one ATLAS COMPOUND by J. MacDonald.

WHAT DREAMS MAY COME

There are four kinds of dreams. The first, between sleeping and waking, or dreams proper; the second, those which one sees concerning another, or a vision; the third, those whose interpretation is shown to the dreamer, or a revelation; the fourth, those which are related to the dreamer in a nocturnal vision. There is also a kind of combination of the above called apparition.

Those who would have true dreams must have an undisturbed mind, a sound body and an intellect not made dull by late suppers or strong drink, not sad by poverty, nor excited, angry or incited by vice.

Every dream has its signification and dreams commonly go by contraries. Dreams possess an element of warning and we are more or less informed of events which afterward happen. When the body is asleep the soul is awake and transports itself everywhere, even where the body would be unable to go.

A dream is that which shows the truth hidden under certain things. A vision is simply a thought happening while the person is half asleep and half awake. A reverie occurs when the person has been thinking steadily on a subject throughout the day and dreams of it at night. An apparition is simply a vision that occurs to the individual persons. Dreams that occur while the mind is tranquil and the stomach empty are often fulfilled.

To dream of roads indicates fortune; if clear and bright, good fortune; if dark and gloomy, evil fortune and future reverses. Rings signify marriage, money and friendship. The serpent is the emblem of falsehood and enmity and denotes enemies. It should put a person on his guard, as it forewarns him of trouble, vexation and annoyance. The coffin, the emblem of death, signifies long life and happiness; also an increase of property through industry, it also portends news from friends at a distance. The dog, the emblem of fidelity, denotes friends and jealousy.

To dream of squares indicate peace and prosperity; oblong figures, domestic troubles. Straight lines indicate peace, journeys, happiness and long life. Wavy and crooked lines indicate vexations and conveyance; if crown or triangle, it denotes unexpected fortune. To dream of a cross means the death of a friend and denotes adversity, trials and sorrow. To dream of flowers is fortunate, it indicates joy, happiness, speedy riches, a prosperous marriage and a happy life. Letters indicate news; if they are clear and easily read they indicate welcome news. To dream of trees indicates good health and a fulfillment of a person's wishes. To dream of mountains indicates friends and good fortune. Clouds signify success, the brighter they are the greater the person's happiness. To dream of the sun, moon and stars denotes happiness and good fortune high honors, change in life, respectability and industry, according to their brightness.

To dream of birds is fortunate: it signifies that the person will overcome his difficulties by perseverance. To dream of animals in general (excepting the dog) denotes misfortune, loss by theft, trouble difficulties, and that the person must use the utmost watchfulness to overcome these things. To dream of children denotes trouble in a person's love affairs; and great expenses coming unexpectedly. To dream of women denotes happiness and joy in general. To dream of men indicates visitors, presents, etc. To dream of worms or creeping things, clocks, woods, or any disagreeable thing, indicates rivals in love affairs and in business matters, hypocrisy, deceit and false friends. To dream of fish signifies news from abroad, confidence of friends, travel, money, fortunate events, improvement in the person's affairs. To dream of houses or large cities indicates a favorable change in the person's fortune, and that they must be cautious and careful in their dealings. To dream of traveling denotes embarrassment and delays.

GAS IN THE STOMACH

There are three distinct sources for an accumulation of gas in the stomach. The first and most common one is the decomposition of the food. When anything decomposes a part of the substance is given off in the form of gas. This is true whether the substance happens to be in the stomach or anywhere else. Whenever decomposition occurs in the stomach the accumulated gas cannot find any easy escape from the stomach, hence inflation occurs. The stomach will become enormously distended, and unless the gas is eructated through the œsophagus the distention is liable to become great before relief can be obtained.

The second frequent source of gas in the stomach is the chemical action upon alkalies. The stomach naturally contains acid. It is liable to contain an over quantity of acid. Many kinds of food taken into the stomach are alkaline in their reaction. The acid and the alkali coming together will produce effervescence, which liberates a gas. People who are much troubled with belching of gas immediately after eating are suffering from this kind of gaseous inflation of the stomach.

The third source of gas in the stomach is from nervous shock. A sudden shock of the nervous system especially in those who are troubled with weak digestion will produce an immediate change in the fluids of the stomach to the extent that large quantities of gas will be immediately evolved. This happens with surprising quickness. A sudden fright or fit of anger will set some hysterical people to eructating gas in an instant.

As for the treatment of these three forms of gaseous trouble in the stomach the best is prevention. In the first form, which depends on delayed digestion, the food ought never to be taken into the stomach during fatigue. Only small quantities of food should be eaten at any one time, and should be carefully chewed. Everything possible should be done to procure rapid digestion. Nothing will help this trouble quicker than ATLAS COMPOUND, and quick relief is always found by taking a few tablets.

KIDNEY TROUBLE--HOW TO TELL

Backache does not occur in every case of kidney trouble. Often the pains and ills that attend kidney trouble are so far from the kidneys themselves that the only certain proof that the kidneys are out of order is the appearance of the urine. Learn what these changes in the urine indicate and serious or fatal kidney disease may be warded off.

Of course the first thing to know is what is the appearance of the urine in good health. While individuals vary somewhat, the following average table is a good guide:

HEALTHY URINE.

Color—Pale yellow to amber.

Appearance—Clear.

Weight—Only a trifle heavier than water.

Amount passed—Three to four pints daily.

Odor—Pungent or acid, but not offensive.

Passages—At will during the day, rarely at night.

Solids—Dissolved and invisible.

Healthy urine is slightly acid, not enough to burn or scald and does not stain the linen.

THE ACTION OF ATLAS COMPOUND.

ATLAS COMPOUND acts locally on the lining membranes of the stomach and intestines, loosens the mucus and slime formation and corrects fermentation, thus cleansing the walls and leaving them in an absorbative condition, promoting the secretion of nature's digestive fluids. Where there is a disturbance of the stomach and intestines of long standing, it may not be corrected in a short time, but **ATLAS COMPOUND** aids nature to remove the cause and correct the trouble. Several months may be required in some cases, but it is better to take small doses for a long time than larger doses. To eradicate disease, purify the blood and tone up the system is what **ATLAS COMPOUND** does if given time.

ATLAS COMPOUND NOT A CATHARTIC.

Take **ATLAS COMPOUND** three times daily with an abiding faith that it may make you well and follow the directions in a general way. **ATLAS COMPOUND** is not a cathartic, but if too large a dose is taken and bowels move too freely it indicates that the medicine is taking hold and removing the slime and mucous from the stomach and intestines too fast. This poisonous slime cannot be absorbed into the system without very detrimental effects and must pass off through the bowels. **ATLAS COMPOUND** leaves no harmful effects. It does not contain acids, potash, mercury, opiates or poison of any kind.

During normal conditions of health and regular morning habit, the poisonous substances undergo chemical changes and are finally carried off through the skin and bowels. But in many people the natural and proper elimination does not take place and this failure causes various disturbances, such as imperfect digestion in the stomach or bowels, constipation and inactivity of the liver or spleen and certain nervous disturbances which lead to the existence of Rheumatic Conditions.

ATLAS COMPOUND AS A CORRECTIVE AND ALTERATIVE.

The Blood is Life and **ATLAS COMPOUND** aids nature to carry off the waste material in the body and remove from the blood and system all impurities. When the slime and mucous are removed from the stomach and intestines, the food will be digested and properly assimilated, the nerves become strong and active and the physical balance restored and the vigor of health and strength what nature intended and what you desire.

Keep physically fit for work if you want to succeed. Good blood, strong nerves and elastic muscles are the secret of old age because they regulate and control every part of the body. When the life blood is polluted or poisoned with fermented matter or corruption it loses its nutritive health sustaining powers.

ATLAS COMPOUND is an excellent blood purifier, is safe, reliable and effective. It does not shock the nerves. It gently and thoroughly cleanses the blood of all impurities and stimulates the debilitated organs, acting as a corrective in all depleted conditions. It acts by increasing the appetite and the digestion becomes normal. It often acts like magic, children require very small doses mixed with fruit, sauce or scraped apple. Sick, puny children as well as elderly people become fat as the result of taking **ATLAS COMPOUND**.

REMEMBER THIS.

Nervousness in many people is due to poor digestion and constipation. Repose and relaxation at meals, clear conscience and avoid worry, black coffee and indulgence in delicacies and pastries are to be remembered. Be cheerful at all times and especially so during meals. There are certain disturbances of the human organs which irritate and torture men and women, which sometimes estrange them from friends in a social way and Indigestion and Dyspepsia is such an affliction. This often may cause a grouch, yet the heart may love humanity. There are many kinds of Dyspepsia but they all produce the same effect, and the greatest of all correctives is **ATLAS COMPOUND**.

NERVOUS DISORDERS

The nerves control the action and vitality of every muscle and organ in the system. The nervous system is the life of the body, and whatever deranges it deranges every natural function. Many strong-appearing men and women fret because they do not feel so well as formerly, and yet the physician tells them that they have no organic disease.

The Nervous System is divided into three parts, as follows: The Great Sympathetic Nerve, the Great Pneumogastric Nerve and the Great Sciatic Nerve. The Sympathetic System runs from the ends of the toes direct to the brain, so that no part of the body can be touched with the point of the finest needle without its being telegraphed back to the brain. It records all outward pain or disturbance.

The Pneumogastric System, the most important in the body, connects every organ inside the body with the brain, and through sympathy every organ is more or less affected when any other organ is out of order. This Nerve connects with the Heart, Stomach, Liver, Kidneys, Spleen, Prostates, Womb, Ovaries, etc., so that any derangement to any organ is immediately telegraphed back to the Brain, or Center of the Nervous System.

The Sciatic System, the largest nerve cord in the body connects with every muscle in the entire body, so that any derangement of any muscle is instantly telegraphed to the Brain Center.

Suppose, for instance, we run a nail in the foot or cut a finger; the news is at once telegraphed to the brain and there is trouble (more or less) all along the line. Again suppose the Stomach or Kidneys do not work right, the Brain is immediately notified and there is trouble all along that line, every organ on that system is also more or less deranged. Again suppose a muscle is injured, contracted by cold, or there is too much acid or alkali in the blood causing a friction of the muscles, then every muscle along that system will be affected. Thus by reflex irritation, a local disturbance may arouse intense suffering at a remote point.

Undigested food of a starchy nature in the Duodenum may (and often does) cause rheumatic pains in the feet or hands, or a fierce neuralgic pain in the head or face, or an intense sick headache. Many cases of so-called Nervous Prostration are brought on indirectly by local irritation or the excessive use of some particular organ which thus affects every organ in the entire human anatomy. An experience of many years has taught me that Amylic (Starch) Poisoning is at the bottom of every headache, neuralgic, and nervous disease. ATLAS COMPOUND must be used faithfully to cleanse the system of these poisons and the diet so arranged that no more starchy food is taken into the system for a while.

SYMPTOMS:—Weakness, restless, unambitious, sleepless, headache, neuralgia, a sense of weight on the top of the head, fickle and impaired appetite, aversion to work and indisposition to remain idle, etc. Perhaps the chief distinction of a real nervous derangement is that the patient is worse in the morning, gradually growing better as night approaches. After a while this nervous unrest will attack the mind or settle upon some organ of the body with fatal effect. It is brought on gradually, as the system weakens, through various diseases which are slowly but surely undermining the constitution. Diseases of the human system are each symptomatic or linked together in an endless chain, and each disease is directly or indirectly the cause of the other.

TREATMENT:—To procure permanent and pleasant relief the sufferer should take ATLAS COMPOUND in doses to suit the system. This treatment is sure, as ATLAS COMPOUND acts gently on the shattered nerves and gradually tones them up and brings them back to a normal condition.

ATLAS COMPOUND is the Vitalizing Remedy that will cause your dull eyes to regain their brilliancy. The exhausted feelings will be replaced by strength and vigor, the nerves will become strong and steady, the depression will be lifted from the mind and happy hopeful thoughts and aspirations will take the place of despair.

A Healthy Body, a Strong Mind and a Steady Nerve are the physical attributes a man should bring to his wife. Such a man, with form erect, eyes brilliant, cheeks glowing with the flush of health, is strong in his sense of Power. His thoughts are brave and his aspirations high. Reader, if you are weak and nervous, easily exhausted or discouraged, debilitated or sexually ailing, do not make the fatal mistake of neglect, or the untroubled water of oblivion will soon close over your head and blot you out from the face of the Earth forever.

HOUSEKEEPER'S ALPHABET

Always be cheerful and patient as well as industrious.

Brooms hanging instead of standing will keep them soft and pliant, but if soaked in strong hot salt water before using they will last longer.

Canning: Do in the early part of the season and early part of the day, to save the fruit and temper.

Dish of hot water set in the oven prevents cakes from scorching.

Economize time and health and means and you will never beg.

Flour: Keep cool and dry and securely covered.

Glass: Clean with a quart of water mixed with a tablespoonful of ammonia.

Happiness is not so much in doing what you want to do but in wanting to do what you have to do.

Ink Stains: Wet with spirits of turpentine; after three hours rub well.

Jars: To keep cereals in good condition always put in glass jars. To prevent jars in the family always bring a smiling face to the breakfast table.

Keep an account of all supplies, with cost and date of purchase.

Love lightens labor.

Money: Count carefully when and where you receive change.

Nutmegs: Prick with a pin and if good oil will run out.

Oranges and lemon peel; dry, pulverize and keep in corked bottles to use for flavoring.

Parsimony: Be careful lest what you call prudence and economy is really this.

Quicksilver and white of eggs destroys cockroaches and bugs.

Rise in the morning full of gratitude for the new day.

Sunshine within and without is good medicine.

Try again and conquer all obstacles.

Undue haste makes waste.

Vinegar never catches flies, but honey does.

Wholesome advice is easy to give and hard to take.

Yielding gracefully is a fine art.

Zest is the secret of success.

DAIRY AND LIVE STOCK

According to the Ohio Station, oats are an excellent feed for dairy cows and contains more protein than does corn. In fact, the grain if fed alone, would make practically a balanced ration from the standpoint of protein and carbohydrates. The yields of nutrients per acre are so much less than in corn that it is usually rather an expensive feed. A bushel of corn contains more than twice as many pounds of digestible and nutrients as a bushel of oats. Therefore the land which will produce 50 bushels of corn should produce more than 100 bushels of oats, if the same amount of digestible nutrients are obtained. Outside of this question of cost, oats are an excellent feed for dairy cows and especially for growing calves.

The good cow is not determined by her large udder at freshening time. She may give a large flow of milk for the first month or two and then drop below the point of profitable production. Weighing and testing each cow's milk is the only sure way of determining a cow's worth and it is the only sure way of building up a fancy herd. Testing, culling and breeding only the highest producing cows to a male of known merits is the way to obtain cows that will be worth more than a hundred dollars each.

NOTES ON HORSES

Too much concentrated food, too generous keep and too nice comfortable stables are often fore-runners of disaster to the brood mares.

High tempered, sensitive horses are more easily spoiled by too much talking than slow quiet horses.

The constitution of the horses may be weakened by making them carry a burden of useless flesh.

Keep off surplus fat by feeding muscle-producing foods.

When the horse comes in wet with rain, first scrape him, then blanket him and rub his head, neck and loins and legs. If the weather is cold, put on an extra blanket in 20 minutes. Change the wet blanket when the horse dries. Do not wash his legs. Rub them dry or bandage loosely with thick bandages. It is far more important to have the legs warm and dry than clean.

be made to gain a pound a day until a year old.

A recommended ration for hogs is composed of two parts whole corn, one part shorts and one part ground corn, with about one-eighth of entire ration, weight, of oil meal. To this add about half a pound of tankage daily for each hog.

CUT WOUNDS—Bring the separated edges of the wound as exactly together as possible, and keep them in that position by strips of sticking plaster, or of soft linen cloth, which must be wound carefully, but not tightly around the part. If considerable pain and throbbing arise, remove the dressing and apply a poultice of bread and water.

ATLAS COMPOUND

HELPS HOPELESS CASES.

It has a peculiar, grateful effect and seems to go right to the spot desired, warms the entire system and gives strength and development where it is needed. It helps the ills and troubles that come from years of misuse of the digestive organs. It is a success in all the disorders designated. It is the King of All Tonics for Weak and Sickly Men and Women.

OBSERVATIONS AFTER USING ATLAS COMPOUND.

Appetite—increased. Blood Pressure—raised. Circulation—stimulated. Digestive Function—greatly increased. Heat of Skin—strengthened. Heat of Body—raised. Mind—stimulated. Muscles—strengthened. Nerves—stimulated. Nutrition—improved. Sensation—increased. Vision—enlarged. Secretions—increased. Bowels—relaxed. Mucus Surface—cleared. Skin Activity—increased. Urine—increased. Respiration—deeper. Sexual Function—stimulated. Sleep—improved.

Catarrh is an inflammation of the tissues. Catarrh of the nose and throat is generally the beginning of the trouble, then it works in Tubes of the Lungs, that is Bronchitis. Consumption is caused by Catarrh of the Lungs themselves; they get so full of the mucus, slimy matter that they actually rot away.

Dyspepsia is Catarrh of the Stomach. Heart Disease is caused by Catarrh of the Heart. Bright's Disease is Catarrh of the Kidneys. Cystitis is Catarrh of the Bladder. Scirrhus (Cancer) is Catarrh of the Liver. Colitis is Catarrh of the Bowels. Amenorrhea, Dysmenorrhea, Menorrhagia and Menophania are simply Catarrh of the Womb.

When you have Catarrh of any part, that part cannot act, the Blood becomes stagnant and cannot circulate, the Vitality declines, and you soon get into such a state that you are liable to absorb anything that comes along: Small Pox, Yellow Fever, Typhoid Fever, Meningitis and all Nervous Disorders.

ATLAS COMPOUND LOOSENS UP this Mucus, Slimy, Catarrhal Matter, wherever it has taken hold, cleans out the system and makes every part of you as good as new. You cannot be healthy and strong if you are all clogged up and your organs are all coated with this nasty, foul Catarrhal matter. If you are ailing in any way take ATLAS COMPOUND.

ATLAS COMPOUND is certainly a wonderful Medicine and its sale phenomenal. No other medicine ever had such an enormous sale in such a short time. There must be a reason for it and there is.

A MARVEL IN MEDICINE

ATLAS COMPOUND is especially indicated for Weak Men and Women—Lack of Energy and Confidence, Aversion to Society, Lost Appetite, Dyspepsia and Debility, Stomach and Kidney disorders. It makes you Fat, Plump and Healthy. It makes you Sociable, Friendly, Confident, Clear Headed, Self-Possessed and Strong in Body and Brain. It gives you Courage and Great Endurance.

ATLAS COMPOUND is Harmless and Delightful to take. It makes Weak, Sickly Children fat, strong and well in a few weeks. It puts Nutrition, Nerve Power, Vitality and Great Strength in low, weak and wasted patients who have been given up to die. It warms and stimulates. The weakest and most sensitive stomach is quickly strengthened and the appetite and digestion becomes enormous. It Enriches and Purifies the Blood. It contains neither opium, cocaine, strychnine nor any poison whatsoever. It is pleasant and safe to take.

BEST TIME FOR PLANTING AND HARVESTING

The Moon in Aries tend to dryness and Barrenness with not very good results. It is not a good Sign to do general planting, but fairly good for destroying growths, cultivating. It is good for planting onions when the Moon is dark.

Taurus being an earthly Sign is the best Sign for planting many crops, such as potatoes, turnips, radishes and peanuts and all crops that grow quickly.

Gemini being dry, cold and Barren is not good for any kind of planting, but a good Sign for killing and destroying noxious growths.

Cancer being the most Fruitful Sign, is moist and therefore the most productive Sign in the Zodiac, almost any seed will produce good results if planted in Cancer and according to the light or dark of the Moon. Seed must be planted for crops above the ground in the New of the Moon. Seed must be planted for crops in the ground in the Old of the Moon.

Leo is the most Barren Sign in the Zodiac and is only good for destroying or killing anything.

Virgo is Barren Sign. It is not to be recommended for planting or transplanting but it is very good for cultivating the ground.

Libra is not considered Fruitful but is used for seeding hay, grain, fodder, etc. Many use it for Lettuce, Cabbage, and vegetables of quick growth, leaves and foliage above the ground, but it is not as good as Taurus for this purpose.

Scorpio is next best to Cancer for planting and productiveness and may be used for all purposes for which Cancer is used.

Sagittarius is dry and Barren, but is used by many for planting onions, seeding for hay and other similar purposes.

Capricorn is an Earthly, cold Sign, not good for planting except for potatoes and deep root crops.

Aquarius which is a Barren Sign is only used for cultivating crops.

Pisces is productive, similar to Cancer and can be used for any purpose for which Cancer is used. In planting seed it is best to use Cancer, Scorpio and Pisces whenever you can. The next best is when the Moon is in the Signs of Taurus and Capricorn, then Libra, Sagittarius and Aquarius. Aries, Virgo, Gemini and Leo are very bad to plant seed. The old of the Moon is the best for harvesting crops.

Potatoes, beets, radishes and all Garden Vegetables should be planted when the Moon is in the Signs of Cancer, Scorpio, Pisces and Taurus. For lettuce, beans, corn, wheat, rye and barley plant when the Moon is in the Signs of Cancer and Libra. For full pulp or foliage growth such as corn, fodder, alfalfa, millet, cabbage, celery and peas plant when the Moon is in the Sign of Libra, or Capricorn, but it should be remembered that Cancer and Scorpio are good for everything. Celery should always be planted when the Moon is in Libra as it will then grow quickly.

For grafting cut your grafts of good bearing trees. Keep grafts in a cool, dark place not too dry or too damp until ready to use them. Be careful not to take the grafts from poor bearing trees. Do your grafting just before the sap starts to flow and while the Moon is from New to Full and while it is passing through or from the Fruitful, movable Signs of Cancer or the Fruitful, watery Sign of Scorpio, Pisces or lastly, Capricorn. The foregoing refers of course to the proper Seasons for the things mentioned. In these periods the Moon shows the best days.

Do not trust the common Almanacs for the Moon's place, for you are sure to meet with poor results. Be sure and get an Almanac such as Doctor MacDonald's Farmers Almanac which gives the true places of the Moon in the Zodiac.

Pick apples and pears in the Dark of the Moon and if they are bruised the spots will dry up, but if they are picked in the Light of the Moon they will rot. Harvest all root crops when the Moon is growing old. They will keep better and longer. Dig root crops for seed during the third quarter of the Moon, they will keep longer, are dryer and better.

All crops that produce their yield above the ground should be planted in the New of the Moon. All crops that produce their yield in the ground should be planted in the Old of the Moon.

Trees and Vines should be pruned or grafted in the New of the Moon. Grain for seed, or future use should be harvested in the third quarter of the Moon. Weeds, brush and all noxious growths should be cut in the Dark of the Moon, when it is in a Barren Sign such as Leo, or Aquarius. Timber cut in the Old of the Moon will not become worm eaten or snap when burning. Set fence posts in the Old of the Moon and they will not "Heave" out. Set eggs so that the chickens will hatch out in the New of the Moon and in a Fruitful Sign. Chickens' eggs take twenty-one days to hatch; ducks and turkeys twenty-eight days, geese eggs thirty days and ostrich eggs five weeks to hatch.

FOR SUCCESS IN POULTRY - RAISE PULLETS

Pullets seldom lay until matured and fully grown and should be hatched as early as possible. In order to have plenty of fresh eggs and beat the cold storage game raise (Pullets) early in the spring that will lay in the fall and winter. Take into consideration and keep the best breeds of pure strains of poultry for egg production, as poultry like anything else where production counts, the cost and operating expense must be considered.

There is a moulting period each year during the hens life when the old feathers are shed and new ones grown. The process begins from July to September and occupies about three months, age having a considerable influence on the time hens begin to moult. Older hens do not start to moult as early as pullets and do not begin to lay until a week or two after new feathers are fully grown, as nature has protected well their bodies from cold weather to keep up health and vitality.

Pullets fed milk in November and December do much better than when only dry feed is given. Sunflowers should be raised and the seeds gathered to be fed along with winter grain, while the sunflower seems the most excellent shade for growing chicks in season. Milk assists nature in keeping the birds healthy and enabling them to produce more eggs, and skim milk will add greatly in the increased egg production.

It is claimed there is as much nutrition in one fresh egg as in a four ounce mutton chop. Therefore, to neglect fowls and feed them nothing but screenings is an injustice both ways, because the birds must live as well as produce. Green cut bones, scalded bran, sprouted oats, barley and sunflower seeds make good feed.

Give hens clean nests; gather eggs at least once daily; keep eggs in a cool dry place; market eggs at least twice a week; after the hatching season closes, kill off all mature male birds and keep only such as are desirable for the coming season.

Poultry should be comfortably housed on a high and dry elevated site with the roosts all on one level and windows so arranged that the fowls will not have to roost in a draft between them. The feeding of pullets to develop weight and size for market is relatively different than feeding to induce egg production.

The heaviest egg producers, especially of white eggs, are the mediterranean variety, the Leghorns, Minorcas, Anconas, Campines and Hamburgs, being popular breeds in America and rank in order about as named.

The single Comb White Leghorn seems to be the variety most in evidence on poultry farms where white eggs are the specialty. The Minorcas are given the credit for laying the largest egg of any chicken and are also white in color. Hamburgs are excellent layers but their eggs are smaller in size. Anconas are given a good reputation but are a comparatively new breed in the United States.

The strains of poultry having the reputation for brown eggs and general purpose fowls are the Plymouth Rocks, Wyandottes, Rhode Island Reds, Orpingtons; their popularity seems to rank in about the order named, although there is really not much difference in a practical way among them, but rather a choice of feathers, color and general style.

Experience seems to prove that it pays to be particular about securing stock from a breeder whose strains have been carefully selected and systematically bred with a view of heavy egg production for several generations, as eggs are often more dependent upon the strain or individual than upon the breed.

The general management of hens kept exclusively for market eggs does not differ in a material way from that of other poultry. Flocks of as many as 500 hens may be housed together in order to simplify feeding, cleaning and housing. Male birds are not required and infertile eggs are considered better for the table and will keep fresh longer than those having been fertilized. Roosters have nothing to do with the number of eggs the hens lay.

Hens being forced for market eggs may be fed more mashes and stimulating foods than hens whose eggs are desired for hatching and for this purpose strong fertility in the eggs is very important. So far as egg farming is concerned, nothing counts but the quantity production.

By keeping the flock composed of young and vigorous stock a greater success in getting eggs will be the result and by judicious feeding and management, it is possible to force about 200 from each Pullet in her first laying year. The average for the second year is about 150 eggs. It is questionable if it pays to keep hens past their second laying year when eggs are desired, as each succeeding year in the life of a hen marks a reduction in the number of eggs she will produce.

Growing chicks need a diet of the most nourishing foods to aid nature in their growth and development. Meal mixed with sloppy cold water should not be given and especially as an exclusive diet. Clean quarters are as necessary as food and equally essential to health.

The vigor of the flock is the anchor rock of successful poultry raising and is secured by careful selection of the best in each brood. An unusually promising cockerel or pullet should be carefully looked after and to distinguish them there should be a ring placed around one of the legs. Eggs should be saved from the best hens for incubation and with careful selection, uniformity of the flock can be built up and with increased utility.

In the poultry yard as well as anywhere else, that which is worth doing is worth doing right. An intimate and daily acquaintance with poultry is what leads to profits. Hens must have a regular and sufficient supply of egg forming material in order to make good layers. With free range from spring to fall they will generally find this, but through winter when closed up their feeding should be well looked after.

The successful secrets in poultry raising is the love of the work, the pleasure in taking care of the flocks, proper attention to feeding and housing, and the same amount of energy and concentrated attention which is necessary to the conduct of any other business if it is to become a paying proposition and yield relatively quick returns.

THE GARDEN

The proper time to lay the foundation for a successful vegetable garden really makes its advent in February and March as this is the time important work is accomplished in getting the seeds and laying out plans in order to obtain the best results. By deciding what crops are first to go into the ground and what is to follow them, and have every available inch of space employed in order to raise the most possible, careful planning is necessary.

Plant in rows, not in beds. Group vegetables that mature at the same time and attain same height. Group low growing vegetables so that they will not be shaded from the sun by taller plants. Practice rotation. Do not plant in the same place. Cabbage, beans, pepper, egg plants, and tomatoes all go in new places.

If the soil in the garden is not rich enough, get seeds of "crimson clover" or "rye" and sow it in the garden as fast as the crops are taken out. Allow this to stand through the winter and plow in the spring. Lime is a good fertilizer, it sweetens the soil and the fall is an excellent time to apply it. Ground limestone is the best for the amateurs garden. For a new lawn the fall is the best time to get it started.

It is usually best to plant beans well into July in order that later crops may come along to supply the table. It is a good thing to go over the plants at intervals and any which have brown spots should be pulled up and destroyed. Do not work among beans when they are wet or when the dew is on them.

The "gladiolus" is one of most decorative flowers for the garden, as it is easily grown. They thrive well in the sun but must be sheltered from rough winds and storms.

POULTRY NOTES

The history of the development of the well known Orpington fowls is of great interest. It was originated in England and is named after the village by that name, the home of the first breeder. This breed of fowl has become justly popular, as it is adapted to almost every climate. They have been seen in Africa, the Arctic regions, where they have been known to the average twenty-six eggs per month through the winter in the extreme north of Canada, or at Archangel in Russia. S. C. Buff Orpingtons were produced by breeding Golden Spangled Hamburg cocks with colored Dorking hens of good size. Many pullets of this cross of a reddish brown color were mated with Buff Cochin cocks. Hamburgs were selected because they laid more eggs than any other breed then in existence; the Dorking because of the length of breast, while Cochins because of their size and great winter-laying qualities. S. C. White Orpingtons were produced by mating White Leghorns with Black Hamburg pullets, the pullets from this cross being mated with White Dorkings. Both breeds are considered among the best winter layers and a fine table bird.

Modern poultry houses have solved the problem of night warmth by building low and placing roosts near the top of the building. This makes the heat thrown off from the fowl's body supply the warmth for their roosting quarters.

The first requirement of a little chick is heat and rest. They should be placed in a warm, clean place on fresh straw. If with a hen the hen should be so restricted as to prevent her from leading the chicks out to be chilled.

Chicks gain weight very rapidly and much of this weight is water. Stale or stagnant water in filthy drink founts carry disease germs and are very likely to cause digestive disorders. Much of the disease among chicks come about in this way. Keep plenty of fresh water before them constantly in clean drinking founts. Sunshine is a germ destroyer and a better egg producer than red pepper or other condimental foods. There is nothing that will start the hens to singing as quickly as lots of sunshine. The more the chicken house is flooded with direct sunlight the dryer and more cheerful it will be.

It requires three months or more to grow a broiler, much depending upon the weight desired, the stock and the care. Broilers shrink about a half pound each when dressed.

Green bone, cut up with a bone cutter, is also a valuable article of diet. The green bones are those with some meat on them, which are generally thrown aside by the butchers.

Squabs are in good market condition when fully feathered under the wings, which is usually about the time they begin to leave the nest. If they are killed at this time they soon lose their baby fat and their flesh begins to harden.

RULES FOR BREEDING POULTRY.—Pointed eggs with a curl of the shell at end denote male germs. Contrary if smooth and round. Young turkeys should not be permitted to run on the ground or in the grass for ten days, before ten o'clock A. M. Indian meal boiled and mixed in sour milk with a sprinkle of red pepper baked in cakes and crumbed up, is the best food. These rules followed will give you the sex and healthy fowls.

TO FATTEN POULTRY.—Make a row of coops, with lath on sunny side of barn, large enough only to admit the fowls standing on a perch in same, and not to turn or get down, feed four times daily at regular intervals with different kind of food each time, (cooked) sufficient only for one meal. In two weeks the fowl will increase 75 per centum.

FOWL TIPS

If the beginner hatches seven chicks from a setting of eggs raises five and secures one good bird, he has made as good an average as many of the headliners in the business. And he can't expect to get a \$20 bird from a \$1.00 setting of eggs. He may, but all the laws of breeding are against him.

Keep the chicks growing. Feed them often all they will eat in a few minutes and at regular times. Don't let them go to bed without their crops bulging out like a doorknob, even if you have to feed by lantern light.

It may be easier to hatch chickens in June, but the late hatched chicks are a delusion and a snare. Birds that don't get their growth before cold comes will not lay until next year, and have to be kept through the winter at a dead loss.

Kill the surplus cockerels now. They soon will begin to worry the pullets, and will sell for more money now than any time later, considering the care and feed.

Do not cross two different varieties. There are more than 125 in the American Standard of Perfection that are pure breed, and one of these will satisfy every demand that any new variety you can make may be expected to do.

Chickens allowed to live in nature's way always will be healthy. It is the introduction of experimental artificiality which makes inroads into the flock.

FORETELLING THE WEATHER

Most birds and beasts are much more sensitive to approaching changes of weather than human beings are, and by close observation of some of their habits the weather can be forecast with quite an astonishing degree of accuracy.

The ravens are among the most infallible weather prophets. When you see them early in the morning soaring to great heights and uttering a hoarse, croaking sound, you may be reasonably certain of a fine, clear day. Swallows flying unusually high in the early morning are another sign of fair weather.

The loud quacking of ducks, geese and other water fowl is a sign of rain. Just before a storm you will always find swine, cocks and hens rubbing in the dust and in other ways showing their uneasiness. Cattle and sheep announce a storm long before its arrival by huddling in one corner of the field with their heads turned away from the wind.

Just before a severe rain dogs are apt to be very sleepy and dull and to lie all day before the fire. If they bark long and loud during the night without any visible cause, it is a sign of a sudden change in temperature.

When moles throw up more earth, when numbers of spiders appear on the walls, when pigeons return slowly to their dovecotes, when the frogs croak with unusual vigor, and when the bees are reluctant to leave their hives—all these are declared by close observers to be forerunners of rain.

Before a severe windstorm sets in, pigs will run squealing about, as if they had gone suddenly mad. In regions where cyclones and tornadoes are prevalent this has given rise to a widespread belief that these animals can actually "see the wind."

In Autumn the flight of wild geese in a westerly or southerly direction, trees and hedges very full of berries, and the early appearance of woodcock, snipe, etc., are all thought to be indications of a severe Winter.

When the next day is going to be fine it has been noticed that bats continue flying about very late of an evening. The floating of gossamer and especially its presence on the rigging of ships are indications of fair weather, in which from time immemorial sailors have placed much confidence.

The appearance of gulls, petrels and other sea birds at some distance inland presages stormy weather.

Almost everybody has noticed that flies are more troublesome and gnats more apt to sting for several hours before it begins to rain.

When the dew lies plentifully on the grass of an evening you may look for a pleasant morrow, but if there is little or no dew, a wet day is ahead.

When a cat washes over her ears you may be pretty sure that it will rain before the day is out. The action is a very noticeable one. After wetting her paw with saliva, puss passes it energetically several times over the upper side of her ear. The action may be performed on the right or left side, or both.

The explanation probably is that the change of atmospheric pressure causes a pressure about the cat's head which she seeks to relieve by washing.

It may be that she will do the same thing if she feels a foreign substance upon the ear, but in that case she usually scratches vigorously with the hind leg. In the majority of cases washing over the ear is a valuable sign of rain.

The common English sparrow will stop its chattering noise seven or eight hours before the arrival of a storm and become ominously silent. All birds give some indication of approaching changes of the weather, but with some species the signs are easier to read than with others.

Creoles are of pure white blood descendents of the early French and Spanish settlers of West Indies and Louisiana. There is no other "Creole". The name is only applied to others or to mixed races through ignorance.

Double the time of the sun's rising, and you will have the length of that particular night; double the time of its setting, and you have the length of the day.

Your watch is a compass. Let it lie flat in your hand, with the hour hand pointing towards the sun; and the point on the circle half way between the hour and XII will be directly south.

SOLAR BIOLOGY

A New Scientific, Exact and Easy Method of Delineating Character; Diagnosing Disease; Determining Mental, Physical and Business Qualifications, Conjugal Adaptability, etc., from Date of Birth.

Illustrated with Diagrams and Tables of the Moon and Planets from 1820 to Date.

A new, scientific and easy method of delineating character according to the position of Earth, Moon and Planets at time of birth. Tells how to determine mental, physical and business qualifications, marriage adaptability, etc., in accordance with the Solar Biology method. This book throws a new light on the problems of life. Tells how to cultivate self and make the most and best of life. Tells one when a child is born what special training it should have, what business it will be adapted to, etc.

This book enables Physicians, Healers, Clairvoyants, and Crystal Gazers to diagnose with greater accuracy. Anyone can easily use this system without any previous study. Differs from Astrology.

This is the original book on SOLAR BIOLOGY, and the only thoro system for reading character from the signs of the Zodiac and the positions of the Planets.

We know of nothing more helpful and interesting. This is the only work of its kind. The book is illustrated with diagrams, author's portrait, and tables of the moon and planets from 1820 to date.

This work tells what is in man and how derived. Tells how to cultivate self and make the most and best of life. Tells one, when a child is born, what kind of training it should have, to what diseases it is liable, how to avoid or how to cure when already developed. Reveals a part of the grand body to which each individual belongs and the consequent mental tendencies, physical fitness, natural sphere and highest and fittest use in the world.

It enables parents to know just what their children are best adapted for, and how to educate them and is also a guide in the preservation of health and strength and an important aid to success and to the attainment of the great object in life; viz., usefulness and happiness. It also aids in prolonging the life of old and young.

ATLAS COMPOUND

A MARVEL IN MEDICINE

FOR MEN AND WOMEN

ATLAS COMPOUND is recommended for diseases arising from Impure Blood such as Dyspepsia, Costiveness, Jaundice, Nausea, Loss of Appetite, Billiousness, Boils, Piles. All Gone and Tired Feeling, Sick and Nervous Headache, Dizziness, Gout, Nervousness, Constipation, Kidney Disorders, Liver Complaint and Diseases arising from Indigestion and Stomach troubles.

ATLAS COMPOUND has solved the great problem of how to keep well and how to banish disease arising from Impure Blood. It is marvelous in its results, yet it is perfectly harmless and pleasant to take, as it is a purely vegetable preparation. It is not a mineral medicine like calomel, potash, etc., which has ruined the lives of thousands of people. In fact, it is a question whether calomel, or like injurious metallic drugs have not really ruined the health of more people than they have cured, for they are exceedingly dangerous medicines, and any one using them indiscreetly takes his life in his hands.

ATLAS COMPOUND first acts upon the Stomach, clearing the system of accumulated bile and then goes to work removing impurities from the blood, throwing them off through the Bowels and Kidneys, thus setting every part of the body to work in the right way, so that you soon begin to feel like a new person. You are no longer tired out and despondent, but your spirits revive, your head is clear, and you are as happy as a bird and equal to any task. Price 60 Cents a Box; by mail, if your druggist does not have it.
